Prashant Singh

Full Stack Developer (MERN) | Java & DSA | Backend-Focused Engineer

Greater Delhi Area

Summary

Backend-focused developer with strong proficiency in Java and Data Structures & Algorithms, and experience building scalable applications. Aspiring Full Stack / MERN Stack Developer with solid backend and database knowledge. Familiar with AI/ML concepts, projects, and seeking opportunities to grow as a backend or full-stack engineer.

Experience

Ai Growth Exa

Full Stack Engineer

February 2026 - May 2026 (4 months)

Full Stack Developer Intern at AI GrowthExa Pvt. Ltd., contributing to the development of scalable web applications by working on both frontend and backend technologies. Involved in building RESTful APIs, managing databases, improving application performance, and implementing responsive UI components while collaborating with a remote development team.

Divine Daily

Search Engine Optimization Specialist

August 2025 - August 2025 (1 month)

India

At Divine Daily, a spiritual lifestyle brand specializing in authentic Rudraksha products, my core responsibility is driving organic growth through SEO strategies. I focus on:

Conducting keyword research to identify high-ranking opportunities relevant to Rudraksha and spiritual products.

Optimizing website content, blogs, and product pages to improve search visibility.

Building and monitoring backlink strategies for domain authority growth.

Performing on-page & off-page SEO improvements to increase organic traffic.

Tracking and analyzing performance through Google Analytics, Search Console, and SEO tools.

Collaborating with the content and marketing team to ensure SEO-driven storytelling that aligns with brand goals.

Edu Tantr

Full Stack Developer

April 2025 - June 2025 (3 months)

India

Successfully completed a Full Stack Web Development Internship at Edu Tantr (April – June 2025). Gained practical exposure to end-to-end web application development with hands-on experience in HTML, CSS, JavaScript, React, Node.js, Express.js, MySQL, and MongoDB. Worked with REST APIs and version control using Git, enhancing both technical expertise and problem-solving skills. This internship helped in strengthening my ability to design, develop, and deploy scalable web solutions while adapting to professional workflows.
